3. Legislative Intent Language

The motions passed to approve the following pieces of intent language:

1. *The Legislature intends that the \$400,000 for Utah Lake Carp Removal be expended only as a one-to-one match from non-state funding sources.*
2. *Conditional on state funding, the Legislature intends that the \$200,000 for the Street Skateboard Park at the State Fairpark be expended only as a one-to-one match from non-state funding sources.*
3. *The Legislature intends that appropriations provided for Division of Air Quality in Item 55 of H.B. 5 (2020 General Session) shall not be expended on enforcing air quality standards which are more stringent than federal regulations or guidelines for a pollutant.*
4. *The Legislature intends that appropriations provided for Division of Water Quality in Item 60 of H.B. 5 (2020 General Session) shall not be expended on enforcing water quality standards which are more stringent than federal regulations or guidelines for a pollutant.*
5. *The Legislature intends that the Division of Forestry, Fire, and State Lands purchase an additional vehicle with the one-time Safety Improvement funding request if approved.*
6. *The Legislature intends that the Utah Lake Eco System appropriation be used to fund treatment to mitigate harmful algal blooms (HABs) in Utah Lake and fund research identifying innovative nutrient management approaches that provide the greatest return on investment to local citizens and to Utah Lake through Scientific Peer Review of the Science Panel advising the Utah Lake Commission and Steering Committee. Specific research focuses would include investigation of constructed treatment wetlands and geochemical augmentation to reduce phosphorous loading, and finally contribute to match funding that could also include in-lake experiments to investigate nutrient cycling and Utah Lake. A final portion of the funding would be used to investigate and address current warning thresholds used by state agencies and local health departments on HABs and appropriate alternatives.*
